

Feather Napkin Ring

Cut feather shapes from the templates provided, one large and one small feather of contrasting colours per napkin ring.

Snip small cuts along the edge of each feather

Fold each feather in half and pull slightly to form a curve and open the cut lines. This is then pressed with an iron.

Cut strips of felt from template provided, these will form the napkin ring.

Decorate the edges with a blanket stitch

Carefully add glue to the small feather and place on top of larger feather. This is then glued to the napkin ring.

When dry you have a beautiful napkin ring. This is repeated to create a set of six. These can be single colours to suit colour theme or mixed colours for a bright and fun table decoration
