

## Flower napkin ring

This is a great addition to the table at any time of the year as the colours can be changed to suit the season. The addition of sparkly decoration can also make the napkins festive for the Christmas table.

Cut 1 – ring and flower centre – Template A

Cut 1 – petals – Template B

Cut 1 – Leaves – Template C

1. On each of the templates cut the slits ready to assemble
2. Template A – Pass the flower end (E) through (A)

3. The loop of Template A is then passed through the cut slit on Template C (this forms the petals of the flower).

4. The loop of Template A is the passed through the cut slit of template B (these form the leaves).

5. Twist to make a good shape. Decoration is added at this stage if required.
